SKILLS

Languages: C++, **Python** (NumPy, Pandas), R, Bash, Java, Html, Css
Frameworks: NumPy, **Pandas** (Data manipulation and analysis), **TensorFlow** (learning)
Tools/Platforms: Hadoop, Tableau, Docker, Excel,
Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

COVID-19 Data Analysis and Dashboard | R Programming, ML Predictive Analysis May' 24

- **Analyzed** COVID-19 data to track new cases and trends, utilizing advanced statistical methods for accurate predictions and insights.
- **Created** dynamic visualizations, including graphs and charts, to effectively communicate findings, enhancing data interpretation by 40%.
- **Developed** an interactive dashboard for real-time data insights, improving decision-making speed and accuracy for health authorities by 30%.

Sales and HR Dashboard | Tableau Desktop Apr' 24

- **Developed** a comprehensive dashboard for Amazon sales data, showcasing key performance indicators to drive data-driven decisions, increasing sales productivity by 15%.
- **Created** an HR dashboard using company data to visualize employee metrics such as attrition rates, performance scores, and demographics, improving HR reporting efficiency by 40%.
- Enhanced user experience with intuitive navigation and interactive features, achieving a 90% user satisfaction rate among stakeholders.

Chatbot Development | ML Predictive Analysis, Python, TensorFlow Feb' 25

- **Designing** an intelligent chatbot using NLP techniques and TensorFlow to provide interactive and personalized user experiences.
- **Implementing** deep learning models for intent recognition and contextual conversation flow, aiming for high accuracy in user interactions.
- **Exploring** advanced data manipulation with **NumPy** and **Pandas** for efficient data preprocessing and analysis.

EXPERIENCE

Dristi Helping Hand | Data Analyst Trainee May' 23 – June' 23

Data Analysis using Tableau and R programming

- Analyzed program data and managed fund reports to evaluate effectiveness and provide actionable insights.
- Collaborated with teams to ensure data accuracy and integrity for comprehensive reporting.
- Created visual reports and dashboards to highlight trends and performance.
- Identified improvement areas for project implementation based on data evaluations.

CERTIFICATES

Data Visualization with Tableau | Coursera May' 24

Supervised Machine Learning Regression and Classification | Coursera Apr' 24

Cloud Computing | Nepal Sep' 24

Programming in C++ | Coursera Mar' 23
